

XXIth conference of the GMPCA

April 18-21 - 2017 – Rennes

Campus Beaulieu - Building 28

Third circular

Since its foundation in 1976, the French association for archaeometry: GMPCA (*Groupe des Méthodes Pluridisciplinaires Contribuant à l'Archéologie* - <http://gmPCA.fr/>) works to promote archaeometry in France and worldwide. Since 1977 the GMPCA edits a scientific journal: *ArcheoSciences-Revue d'Archéométrie* (previously entitled *Revue d'Archéométrie*) and organises a biannual conference. The first edition was organised in Rennes, where 20 years after in 1997 the conference was again organised.

For its 40 years, the GMPCA conference will be again -arranged in Rennes for its XXIth edition from **18 to 21 April 2017**. Organised by the laboratory CReAAH UMR 6566 (*Centre de Recherches en Archéologie, Archéosciences, Histoire*), the conference includes six thematic sessions which will welcome all the researches currently developed in the field of archaeometry.

The conference “**Archéométrie 2017**” will be located at the Beaulieu campus of the University of Rennes I. The city was known during at Roman times under the name of “Condate”, then becoming the capital of the Bretagne region, Rennes will welcome you with its rich architectural heritage and its festive evenings.

Six thematic sessions and a round-table are already planned, together with some historiographical introductory conferences jointly proposed by the network CAIRN and the GMPCA. According to the submitted abstracts, the proposed sessions will be prone to some adjustments.
