Contents

Digital archaeological heritage: an introduction	7
--------------------------------------------------------	---

Keith May

Session 1 Measuring and sensing

The Rae Project: digital documentation of a nation's heritage	19
---------------------------------------------------------------------	----

James Hepher, Lyn Wilson and Sofia Antonopoulou

It's all in the Pixels: high resolution remote sensing data and the mapping and analysis of the archaeological and historical landscape	25
-----------------------------------------------------------------------------------------------------------------------------------------------	----

Erwin Meylemans, Karl Cordemans, Katrien Cousserier and Isabelle Jansen

Non-invasive archaeology in the Republic of Moldova – An example of multidisciplinary approach and international partnership	29
------------------------------------------------------------------------------------------------------------------------------------	----

Sergiu Musteață, Alexandru Popa and Hans-Ulrich Voß

Acoustic research on historic submarine hulls	35
-----------------------------------------------------	----

Mark Dunkley

Free and Open Source Software development in archaeology. Two interrelated case studies: gvSIG-CE and Survey2GIS	41
------------------------------------------------------------------------------------------------------------------------	----

David Bibby and Benjamin Ducke

Historic Building Information Modelling	45
-----------------------------------------------	----

Paul Bryan

Session 2 Data to knowledge

Archaeological data in the GIS portal of the National Heritage Board of Poland	49
--------------------------------------------------------------------------------------	----

Agnieszka Oniszczyk and Agnieszka Makowska

Digitising the archaeological process at the Swedish National Heritage Board: producing, managing and sharing archaeological information	53
------------------------------------------------------------------------------------------------------------------------------------------------	----

Åsa M. Larsson, Marcus Smith, Rikard Sohlenius and Tord Klafver

Why the historic environment needs a Spatial Data infrastructure	59
------------------------------------------------------------------------	----

Peter McKeague, Anthony Corns and Axel Posluschny

Switching to digital tools: heritage evaluation for preventive archaeology in Hungary	65
---------------------------------------------------------------------------------------------	----

Máté Stibrányi

Saving treasures of the World Heritage at the Digital Archive DANS	69
<i>Hella Hollander</i>	
Archaeological map of the Czech Republic. Current state and future visions of virtual research tools in the Czech Republic	75
<i>Martin Kuna, David Novák, Jan Hasil and Dana Křivánková</i>	
Archaeological Service Agency: an Open Source WebGIS application for Albania	81
<i>Rudina Zoto</i>	
Long-term data preservation and re-use: the work of the Archaeology Data Service	85
<i>Julian Richards</i>	

Session 3 Visualising the past

Using 3D technology to digitise and replicate the near Lewes Hoard	91
<i>Jaime Kaminski</i>	
The digital dimension of cultural heritage. New opportunities for digital access to cultural goods by the Hellenic Ministry of Culture and Sports	95
<i>Elena Korka</i>	
An on-site presentation of invisible prehistoric landscapes	101
<i>Jiri Unger and Petr Kvetina</i>	
Recent developments in the application of new digital technologies in archaeological heritage management in Hungary	105
<i>Erzsébet Jerem and József Laszlovszky</i>	
Archaeology and geohistory: building a multi-user platform in the Brussels Capital Region, Belgium	111
<i>Hans Blanchaert, Marc Meganck, S. Modrie and Daphné Van Grieken</i>	
3D-ICONS Ireland – Fulfilling the potential of a rich 3D resource	117
<i>Anthony Corns, Gary Devlin, Aaron Deevy, Robert Shaw and Linda Shine</i>
